

## **PALMDALE HYBRID POWER PROJECT PRESIDING MEMBER'S PROPOSED DECISION**

Consideration and possible adoption of the Committee's Presiding Member's Proposed Decision on the PALMDALE HYBRID POWER PROJECT (Docket No. 08-AFC-9), and Errata. The Committee issued its Presiding Member's Proposed Decision (PMPD) on June 16, 2011.

The proposed PALMDALE HYBRID POWER is a hybrid natural gas-fired combined cycle and solar thermal generator, located northwest of the Los Angeles/Palmdale Regional Airport in the City of Palmdale, Los Angeles County.

The PMPD contains the Committee's rationale in determining that the proposed project will, as mitigated, have no significant impacts on the environment and will comply with all applicable laws, ordinances, regulations, and standards (LORS).
